Lekki, Lagos · 08063120245

chidi.andrew@gmail.com · <https://www.linkedin.com/in/andrew-ofuenweuche-797a31aa/>

A budding Electronic and Electrical Engineer, who is strongly guided by integrity, seeking to join a progressive organization as an intern/corps member. I have had some work experience as a 400 level Industrial Training student in power distribution system services and facility maintenance. Also, I have been involved in some series of facility management and project engineering endeavors. I have excellent written and oral skill. Content creator and I have assisted in frontend web development of an ecommerce store.

EXPERIENCE

09/2018 – 02/2019

IT TRAINEE, FEDERAL AIRPORT AUTHORITY OF NIGERIA (FAAN)

I participated in the repairs and installations of underground cables at the Bristow Helicopter terminal.

I participated in the grounding of a step-down transformer in the FAAN headquarters.

05/2020 – 11/2020

INTERN, AMPIO SMART HOME

I engaged in the design, planning and installation of the retrofitted solution of turning an already existing building into a smart home at VGC.

I did some marketing and clients' follow-ups.

I supervised the installation of a remote controlled gate done by a third party company on our behalf.
